

Maccabee Industrial Cuts Takeoff Time by 75%

AI automation from LIFT accelerates bids, boosts accuracy, and drives growth

COMPANY PROFILE

Maccabee Industrial

Southwestern, PA

BUSINESS GOAL

Accelerate takeoffs to increase bids and win more projects

THE BOTTLENECKS

- ✗ Manual, pen-and-paper takeoffs limited bidding capacity
- ✗ Estimators forced to trade accuracy for speed
- ✗ Outdated processes slowed response time and growth

THE RESULTS

75% time savings on large projects

50% faster overall takeoff process

Days reduced to hours on bids

Higher accuracy and confidence

HOW LIFT HELPED

Maccabee adopted LIFT's AI-powered software to automate drawing analysis, eliminating manual steps and enabling estimators to focus on strategy and quality.

- ✓ Seamless onboarding and intuitive use
- ✓ Genuine automation with AI detection
- ✓ Rapid adoption with minimal training

“We’re literally going from 1980 to 2025 — that’s a 50-year technology jump.”

Don Fleszar, Estimator
Maccabee Industrial

Maccabee can now pursue more bids and larger, complex projects, increasing revenue potential and maintaining a competitive edge.
